OBJECTIVE

I am Rajkumar Dash, a motivated and detail-oriented aspiring Software Engineer, eager to apply my programming skills, web development skills, and analytical problem-solving to create innovative solutions while advancing my professional growth in a dynamic and challenging environment.

Experience

SILICONBRICKS - Frontend Developer   *July 2024 - Present*

- Developed responsive web pages using HTML, CSS, JavaScript and Reactjs ensuring cross-browser compatibility and a seamless user experience.
- Collaborated with design and back-end teams to integrate APIs, implement UI designs, and optimize website performance.
- Debugged and resolved front-end issues while using Git for version control and maintaining a clean, efficient codebase.
- Demonstrated strong teamwork and communication skills in a collaborative development environment.
- Gained an understanding of concepts like Web Services and REST APIs

Education

National Institute Of Science And Technology, B.Tech in Computer Science Engineering   2020 – 2024 | Berhampur

- CGPA: 8.0/10

De Paul, Intermediate   2017 – 2019 | Berhampur

- Percentage: 84.6%

Academic Project

E-commerce Website
Technologies: Spring Boot, Hibernate, React, MySQL, REST APIs, JWT, Stripe, PayPal

- Developed a full-stack e-commerce platform using Spring Boot for back-end services and React for front-end.
- JWT-based authentication for secure user login and role-based access.
- Designed a dynamic product catalog with shopping cart, order management, and payment gateway integration.
- Used Hibernate for database management, optimizing queries and ensuring seamless interaction with MySQL.
- Built a responsive, user-friendly admin dashboard to manage products, users, and orders.
- Integrated third-party payment gateway (Stripe/PayPal) for secure online transactions.
- Enhanced application performance by reducing load times by 20

Skills

- **Programming Languages:** Java, Python
- **Web Technologies:** HTML, CSS, JavaScript, React.js
- **Frameworks/Libraries:** Spring Boot, Hibernate
- **Database Technologies:** Oracle, MySQL
- **Operating Systems:** Windows, Linux
- **Other Tools & Technologies:** Git, GitHub, REST APIs, Object-Oriented Programming (OOP), Agile methodologies, Data Structures and Algorithms
